

**Figure A-1**. The Delta science governance Full Network, showing the main 12 Delta science collaborative venues (black) and all of the organizations (colors) that participate in at least one such venue. Organizations are connected with ties (gray) to venues if they participate in that venue<sup>1</sup>. Both organizations and venues are more centrally located in the diagram the more ties they have. See Acronym list below for the full name of venues.

<sup>&</sup>lt;sup>1</sup> Note that in the case of CAMT/CSAMP, the participation structure is actually more simple, with multiple organizations represented by a single individual.
